

ECOGRID N50

01/2019

PARAMETERS

Biologically active area in: **85%**

Height: **5 cm**

Dimensions: **50 cm / 50 cm (4 pcs./m²)**

Colour: **black**

Weight: **1.86 kg (7.44 kg/m²)**

Compressive strength up to **1000 t**

Durability: **25 years in natural soils 4<pH<9**

✓ Product compliant with
the standard **PN-EN13249:2016**

APPLICATION

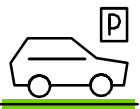

roads and driveways

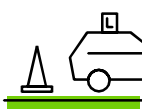

hardening of slopes
and embankments

airports and airfields

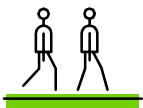

roads and driveways

vehicle manoeuvre areas

camping grounds

pavements, promenades

animal enclosures,
paddocks

other load-bearing
surfaces

PACKAGING

number of pieces per pallet: **188**

quantity of m² per pallet: **47 m²**

pallet size: **120/120**

pallet height: **2.1 m**

gross pallet weight: **390 kg**
